

Energy Economics

- Top field journal
- Ranked 20-30 among economics journals
- Title is a misnomer
 - Incorporates *Journal of Energy Finance and Development*
 - Publishes a lot in energy finance
- No restriction on methods
 - Econometrics
 - Experiments
 - Optimization models
 - Industrial organization
 - Efficiency analysis
 - Computable general equilibrium models
 - Input-output models
 - Decomposition
 - Multicriteria analysis

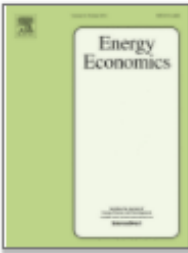

Energy Economics

- No restriction on topic, except that it needs to relate to energy
 - Energy production, consumption, markets
 - Energy and other markets
 - Energy and the business cycle
 - Energy and development
 - Externalities of energy
 - Methodology
 - Meta-analysis
 - Literature review
 - Replication

Energy Economics
Volume 84, October 2019, 104503

El Niño, La Niña, and a cup of Joe

Peter S. Sephton 

Energy Economics

- No geographic restrictions

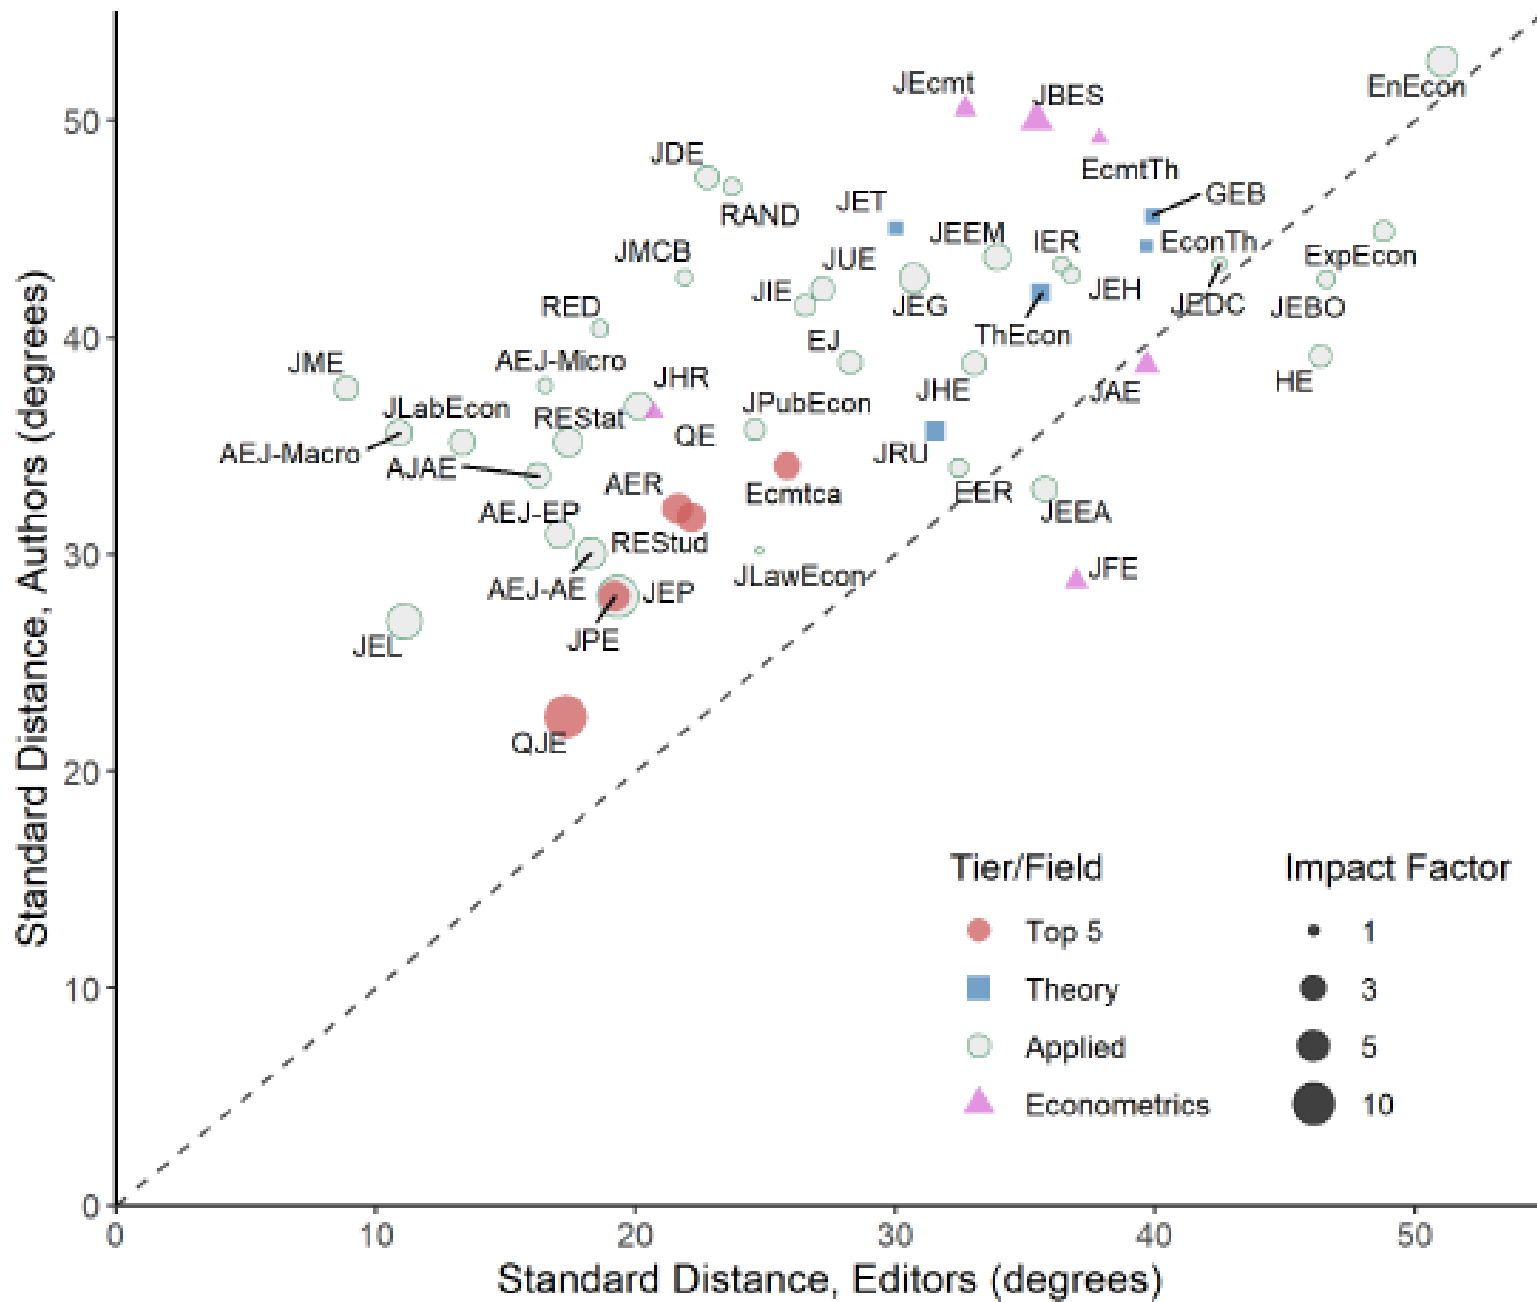

Energy Economics
Volume 92, October 2020, 104950

Price ceilings as focal points to reach price uniformity: Evidence from a Chinese gasoline market

Xiao-Bing Zhang , Yinxin Fei , Ying Zheng  , Lei Zhang 

Energy Economics

- Papers should be as long as needed, but not longer
- Paper read by editor-in-chief, handling editor before referees
 - Many desk rejections; papers should
 - Be well-formatted and clearly written
 - State their contribution clearly and early
 - Avoid detours, be to the point
 - Have self-contained tables and figures
 - Avoid acronyms
- Papers need to substantially add to methods or knowledge
 - Not papers that find for country A what was found for similar countries B, C, D and E
 - Not papers that lag behind the state-of-the-art
- Time to first decision: 62 days
- Rejection rate: 70%

Energy Economics

- The replication package is part of the review – it is the best, sometimes only way to find out what was really done
- Replication package will be published with paper
- Replication package may be audited before publication
- This is increasingly common in economics, still unusual in finance
- Papers with primary data are offered **second** publication in sister journal *Data-in-Brief*, with light review and no publication fee
- Incentive for primary data collection
- Improved data dissemination
